

Founded in 2009, the California Network of Family Strengthening Networks (CNFSN) is a membership-based organization comprising various county, regional, and statewide networks that focus on strengthening and supporting families. Each of these networks consists of two or more Family Resource Centers or Family Strengthening organizations.

The mission of the CNFSN is to connect family strengthening networks across California to promote quality practice, peer learning, and mutual support.

The vision of the CNFSN is that Family Strengthening Networks are part of a strong, cohesive mutual support network that promotes positive outcomes for families, communities, and networks.

The CNFSN focuses primarily on:

- **Peer Support and Networking** – Increasing connectedness, mutual support, peer learning, and information sharing amongst network leaders, through biannual statewide convenings, sharing of contact information, and a web portal.
- **Promotion of Best Practice** – Raising awareness of what quality Family Strengthening and Support is through the promotion of the Standards of Quality for Family Strengthening & Support.
